

FULL FARM MANAGEMENT, ON THE GO

MONITOR MACHINES
IN NEAR REAL-TIME
AND RECEIVE ALERTS
FOR RELEVANT EVENTS

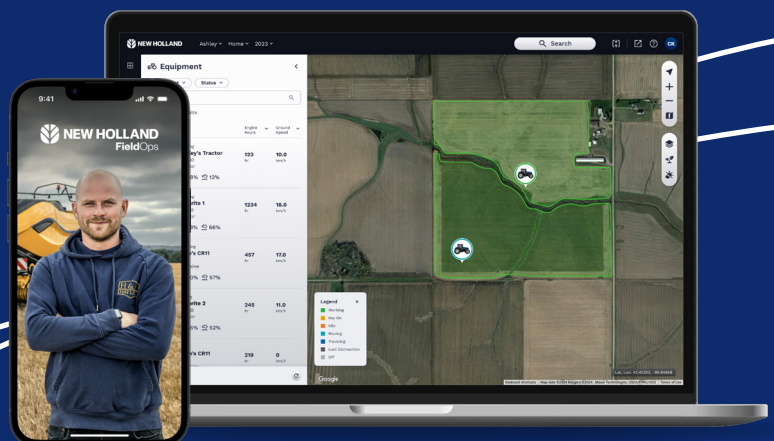

VISUALIZE
AGRONOMIC DATA
AND ACCELERATE
YOUR DECISION-MAKING

REMOTELY VIEW
IN-CAB DISPLAYS
AND EASILY MONITOR
TASK COMPLETION

FieldOps™ gives New Holland and multi-brand operators a centralized, **easy-to-use farm management web and mobile application.**

Streamline your workflow and access your data from anywhere with FieldOps™' easy-to-use interface:

- ➔ Effortlessly monitor all your machines in near real-time and customize your setup to work your way.
- ➔ Process agronomic data generated during field activities to your boost farm productivity and hence profitability.

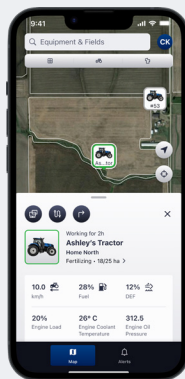

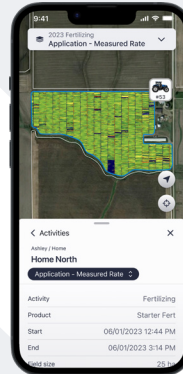

Manage your farming operations in one place with effortless navigation

Monitor Machines in Near Real-Time

Get precise location and job status, monitor task completions and view 24-hour machine history.

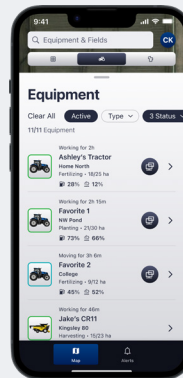

Monitor Machine Health & Activity

Control every detail of your fleet (e.g. work status, fuel consumption..) and quickly spot and resolve high-priority issues with real-time customized notifications.

Visualize Agronomic Data Layers

View, compare and get in-depth analysis of your field's conditions by toggling between data layers of a specific job or activity. Set-up data integration between New Holland equipment and third-party systems.

Remotely View In-Cab Displays

Give your operators extra support with remote display viewing. Use FieldOps™ to help your operators make real-time adjustments, almost as if you are in the cab with them.
